# Conference Programme

# Conference Programme

November 20-21, 2023, Vienna, Austria

Day 1, November 20, 2023

Meeting Hall: Flemings Room 8

8.00 - 8.45

Registrations

8.45 - 9.00

Introduction

## Keynote Presentations

9.00 - 9.45

Gilbert Glady, EBMA Europe, France

**Title:** Do SARS-cov-2 and EBV Work Together? If so, is There a Way to Neutralize Them? The Right Answer is BI(G)MED

9.45 - 10.30

Frances McGill, St.George's University, West Indies

**Title:** The International Impact of Human Papillomavirus: Identification of Country Specific Genotypes

## Exhibitor Presentation

10.30 - 11.00

Alex Sturm, Resistell AG, Switzerland

**Title:** Accurate and Rapid Antibiotic Susceptibility Assessment Using a Machine Learning-Assisted Nanomotion Technology Platform

Group Photo: 11.00 - 11.10

Networking and Refreshments : 11.10 - 11.30 @ Foyer

## Oral Presentations

Session Chair:

Yoshio Matsuki, National University of Ukraine, Ukraine

**Sessions:** Infectious Diseases | Corona Virus Disease (Covid-19) | Bacterial Infectious Diseases | Fungal Infectious Diseases | Viral Infectious Diseases | Veterinary Diseases | Paediatric Infectious Diseases | Nosocomial Infections And Control | Urinary Tract Infections | Blood Infectious Diseases | Sexually Transmitted Diseases | Microbiology And Virology

11.30 - 12.00

Susol Ondrej, University of Ostrava, Czech Republic

**Title:** Long-Term, Single Centre Report on the Immunogenicity of mRNA Vaccine Against COVID-19 in Patients with Hematological Malignancy

12.00 - 12.30

**Riika Mäkinen**, Satakunta University of Applied Sciences,  
Finland

**Title:** A Comprehensive Indoor Hygiene Concept for Infection Prevention and Control Within Built Environments

12.30 - 13.00

**Saed Warrag**, Nalut University, Libya

**Title:** Ultraviolet Far-UV (222nm): A Promising Approach for the Disinfection of Hospital and Indoor Occupied Public Spaces

**Lunch @ Restaurant: 13.00 - 14.00 @ Flemings Restaurant**

## Keynote Presentation

14.00 - 14.45

**Vladimir Zajac**, Former Researcher at the Cancer Research  
Institute, Slovakia

**Title:** The Important Role of the Intestinal Tract in Viral Infections

## Oral Presentations

14.45 - 15.15

**Rumiko Okamoto**, University of Tsukuba, Japan

**Title:** The Effects of Facial EMS Device in Women – A single-arm Feasibility Pilot Study

15.15 - 15.45

**Mirza Kovacevic**, Cantonal Hospital Zenica, Bosnia and  
Herzegovina

**Title:** Septic Shock: Microcirculatory Shock

15.45 - 16.15

**Philip Norrie**, University of New South Wales, Australia

**Title:** A History of Infectious Disease in Ancient Times – More Lethal Than War - An Alternative Medical History Perspective of Ancient History

**Networking and Refreshments: 16.15 - 16.40 @ Foyer**

16.40 - 17.10

**Efterpi Varada**, General Hospital of Xanthi, Greece

**Title:** Breast Gangrene: A Life-Threatening Infection

**Day 1 Concludes followed by Awards Ceremony**

Day 2, November 21, 2023

Meeting Hall: Flemings Room 8

### Keynote Presentation

9.00 - 9.45

**Yoshio Matsuki**, National University of Ukraine Kyiv-Mohyla Academy, Ukraine

**Title:** Method to Find the Original Source of COVID-19 by Genome Sequence with Computer Simulation

9.45 - 10.30

**Federico Iovino**, Karolinska Institute, Sweden

**Title:** Spatial-Temporal Pattern of Brain Invasion and Strategy of Adhesion to Neurons by *Streptococcus Pneumoniae*

Networking and Refreshments: 10.30 - 11.00 @ Foyer

### Oral Presentations

Session Chair:

**Gilbert Glady**, EBMA Europe, France

**Sessions:** Vaccines And Vaccination | Rare Infectious Diseases | Surgical Site Infections | STD And HIV Infection | Viruses And Cancer | Disinfection And Sterilization | Plants Diseases And Infection Control | Neuro Infectious Diseases | Epidemiology | Orthopaedic Infections | Sepsis/Septicemia | Infectious Diseases Prevention, Control and Cure |

11.00 - 11.30

**Jaroslav Novák**, Charles University, Czech Republic

**Title:** Covid-19 in the Czech Republic - possible Connection with the Overall Health of the Czech Population

11.30 - 12.00

**Lucy Baldeon**, Universidad Central Del Ecuador, Ecuador

**Title:** Clinical and Biomolecular Markers to Discriminate Mortality in COVID-19 Patients Living at High Altitude City

12.00 - 12.30

**Petia Genova-Kalou**, National Centre of Infectious and Parasitic Diseases, Bulgaria

**Title:** Increasing the Diagnostic Capacity for the Detection of Q-fever in Bulgaria a Set of Serological and Molecular Biology Method

### Poster Presentations

PP-001

**Elchin Huseynov**, Azerbaijan Medical University, Azerbaijan

**Title:** Azerbaijan as a Malaria-Free Country

PP-002

Fanan Suksawat, Khon Kaen University, Thailand

**Title:** Surveillance and Antimicrobial Resistance Patterns of Salmonella Isolated from Chicken Meats in Northeast of Thailand

**Lunch @ Restaurant: 13.00 - 14.00 @ Flemings Restaurant**

PP-003

Sunpetch Angkittrakul, Khon Kaen University, Thailand

**Title:** Prevalence and Antimicrobial Resistance of Salmonella Collected from Pork in Northeast of Thailand

PP-004

Jirina Markova, Veterinary Research Institute, Czech Republic

**Title:** Susceptibility of *Corynebacterium Pseudotuberculosis* Isolates Obtained from Sheep and Goat Farms in the Czech Republic to Antimicrobial Agents

PP-005

Monika Beinhauerova, Veterinary Research Institute, Czech Republic

**Title:** Utilization of the Actiphage®-IS900 qPCR Assay as a Diagnostic Tool for Rapid Determination of Paratuberculosis Infection Status in Small Ruminant Herds

PP-006

Liria Okuda, Biological Institute, Brazil

**Title:** Case Report: Vaccinia Virus as an Important Pathogen in the One Health Context

PP-007

Eliana De Stefano, Biological Institute, Brazil

**Title:** Serodiagnosis of Foot-and-Mouth Disease in Animals for Transit and for Commercialization of their Products

## Video Presentations

VP - 001

Mehrdad Mosadegh, Tehren University of Medical Science, Iran

**Title:** The Effect of Nutrition Bio-shield Superfood (NBS) on Disease Severity and Laboratory Biomarkers in Patients with Covid-19: A Randomized Clinical Trial

VP - 002

Roozbeh Taslimian, Pasteur Institute of Iran, Iran

**Title:** Detection and Differentiation of Leishmania Parasites in Asymptomatic Canine by High-Resolution Melting Analysis of Microsatellite Fragment in ITS Gene

**Day Concludes followed by Awads Distribution & Vote of Thanks**
